

NEW PRODUCT!

EDGE BUSTER

**ADD TO NEW
OR EXISTING
SWEEPS!**

The Edge Buster expands on the already significant added features of a Daay Paddle Sweep by breaking up and agitating foreign material and clumped grain at the bin wall. **Edge Busters can be installed on all new or existing sweep models.**

FEATURES:

- Finger material is made from a non-sparking and anti-static plastic.
- Shear bolt protected assembly.
- Retro-fit capability on all existing sweep models.
- Patent pending.

**OFFERS IMPROVED AGITATION
OF NON-FLOWING GRAIN
& FOREIGN MATERIAL
AT THE BIN WALL!**

BENEFITS:

- Reduces the labor needed to unload the bin.
- Further reduces need to access the bin.
- Can be retrofitted to all existing sweep models.
- Prevent buildup of old grain and debris on the edge of the bin.

DESIGNED EXCLUSIVELY FOR THE:
