LIVESTOCK

THE ORIGINAL TEXAS FENCE FIXER

Features

- Works with barbed wire, electric fence wire, horse fencing or net wire fence.
- Durable and comes with a lifetime replacement guarantee.
- No need to remove staples or tie wires, since a repair can normally be done in approximately 60 seconds.

Step 1. Choose any convenient point along the slack fence line to make the repair.

Step 2. Bring the handles together to stretch the wire as tight as possible.

Step 3. Lay a short length of spare wire across face of tool.

Step 4. Wrap spare wire around the stretched fence wire

Step 5. Inset tool handle into the loop. Wrap the loop around the spare wire.

Step 6. Loosen the chain and remove tool from wire.

There's no faster, more permanent way to take the slack out of your fence line.
