THE ANSWER TO YOUR STORAGE NEEDS!

Features

- Storage for: Corn burning stoves, various grain pellets, bulk seed or anything you need.
- With the increasing popularity of corn-burning stoves, the mini corn bin offers a solution for storing the corn needed to burn those stoves.
- The average size of home takes one 5 gallon bucket of corn for heat. That means that the mini corn bin will store enough corn to last 6 weeks.
- Using the mini corn bin to store corn for a corn-burning stove will save you money on fuel costs this winter.
- Wide variety of bottom attachments. Unit comes with poly boot and slide valve for easy unloading of product in bin.
