Grain Bin Unload

■ **UP TO**  
**135'**  
Grain Bin  
Diameters

## Features & Benefits:

### ZERO ENTRY

- Achieve the ultimate clean without entering your bin!
- Capable of starting under load.
- Avalanche-proof.

### INTELLIGENT DRIVE CONTROLS

- All-weather touchscreen display & tactile button control.
- Integrated diagnostics and maintenance.
- Standard VFD for fine-tuning throughput.
- Local or remote operation.
- Independent electric motor for each drive.

### PATENTED ANGLED SWEEP DESIGN

- Allows for easier startup and protection from grain avalanches.
- Leading edge agitates out of condition grain and foreign material.
- Agitation promotes en-masse grain flow.

### CURVED PADDLES

- Curved paddles with claw-type supports move more grain with less friction.
