

TRIUMPH FAN & ULTRA-LOW HEATER

**THE FUTURE OF
FAN TECHNOLOGY**

**HIGH-EFFICIENCY • COST SAVINGS
FOR NEW OR EXISTING SITES**

**Available In 7.5hp Or 10hp,
Single & Three Phase**

- **Labor savings** with no transition to assemble.
- Similar performance as Sioux Steel Centrifugal Fan.
- **No need to buy a transition** with the Triumph Fan!
- Great **replacement option** for existing sites.

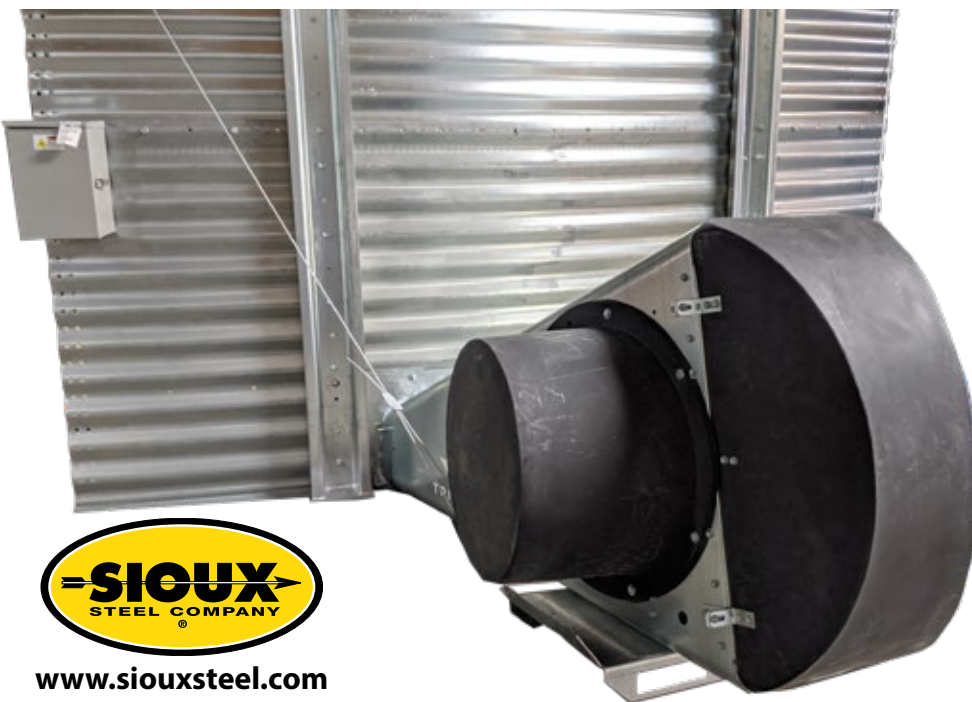

**Two Different Options
with the following advantages**

1) BASE FAN (no VFD, no Heater)

- Better price point fan.
- Labor Savings with no transition to assemble.
- Same performance as Sioux Centrifugal.

2) FAN/VFD

- Works with poor single phase power installations.
- Improved reliability of 10hp, 3 phase motor.
- Energy savings with VFD & operator input speed reduction.
- UL/uCL listed.
