The Equipment To Have

No other product can match our quality and durability, while offering the most common sense solutions for livestock equipment.

Testimonial

"I have been to several farm shows and watched the cattle chutes and tubs go head to head. For my family, we use the Sioux Steel chute, tub & alley system. Easy to use and durable, which are both very important. Lord willing, someday I'll pass down my name, and a Sioux Steel chute, tub & alley system."

Sioux Steel Heritage

Founded in 1918, Sioux Steel Company is now in its fifth generation as a family-owned company.

Our mission is not only to satisfy our customers, but we want them to be ***delighted*** to do business with us.

We feel a definite obligation to provide our customers with high-quality products and outstanding service.

GATES

FEATURING MODELS WITH LIFETIME WARRANTIES

VICTORY GATES

With heavy-duty Z-bar vertical braces, Victory gates are our heaviest and most durable line. Rounded tops and prairie gold powder coating make this one of our most popular livestock products and a must have on your farm or ranch.

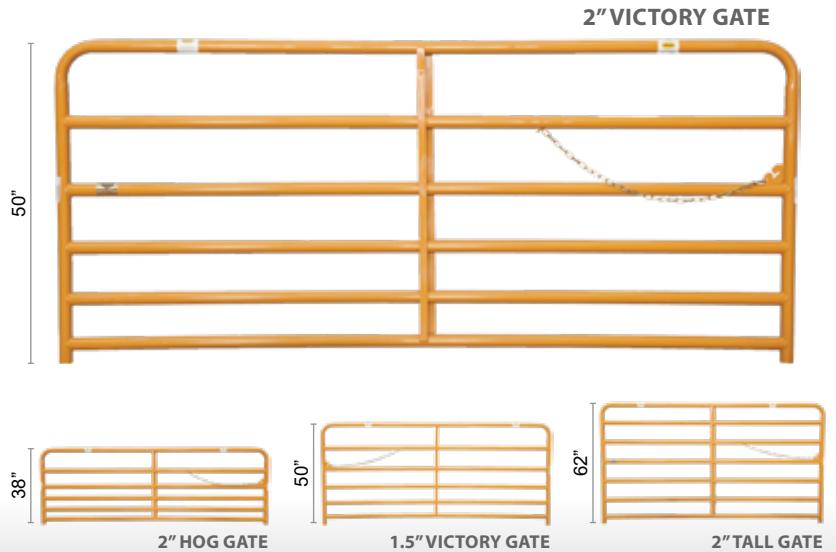

VICTORY	GAUGE	LENGTHS	HEIGHT	BAR
2" Victory Gate	16	4' - 20'	50"	6
1.5" Victory Gate	16	4' - 18'	50"	6
2" Hog Gate	16	4' - 20'	38"	6
2" Tall Gate	16	4' - 18'	62"	7

Color: Prairie Gold

Corners: Round Tops

NOTE: Sioux Steel Victory Gates are sold less hinges. Order hinges separately. All specifications are subject to change or improvement without notice.

Actual gate lengths are 5" shorter than stated lengths.

SIoux STEEL PRODUCTS ARE MADE IN THE USA

LIFETIME WARRANTIES ARE STANDARD ON 2" VICTORY GATES & 2" VICTORY TALL GATES.

If a gate is ever damaged so that it cannot be used for its intended purpose, we will repair or replace at no charge.

Please See Additional Details On Page 6.

16 GAUGE HIGH QUALITY MATERIALS
Made from 16 gauge, 58,000 psi, high-tensile structural steel tubing. Premium powder coat paint.

Z-BAR VERTICAL BEAM
One piece formed and punched to support crossbars. All steel parts become one, unbroken piece. (except 4' & 6' gates)

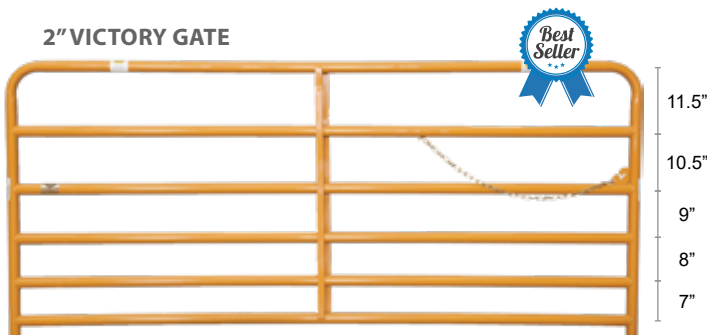

58,000 PSI 58,000 PSI
Sioux gates are made of high-tensile, 58,000 PSI structural steel tubing. (Does not include 1.5" Victory gates)

MITERED JOINTS
Mitered and arc welded. Every tube is cut and tailored for a perfectly fitted connection before it's given a permanent, 360° weld.

PATENTED T-SLOT LATCH & CHAIN
Slotted latch is easy to lock and unlock, but requires twisting action to open, so it's stock proof. Can be padlocked if needed. Chain is 29 links, 3 ft. long - wraps around railroad ties.

DURABLE POWDER COATING
All Sioux Steel gates feature a powder coated finish in which premium paint is baked at high temperatures onto the metal of the gate, thus insuring a long-lasting protective barrier against the elements.

Warranties

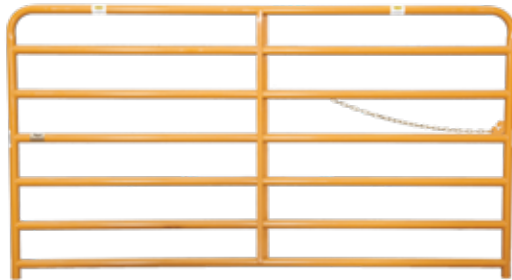

LIFETIME GUARANTEED GATES

- 2" Victory Gates
- 2" Victory Tall Gates
- 2" HiQual Heavy Duty
- 2" HiQual Cattleman's
- 2" HiQual Super Six

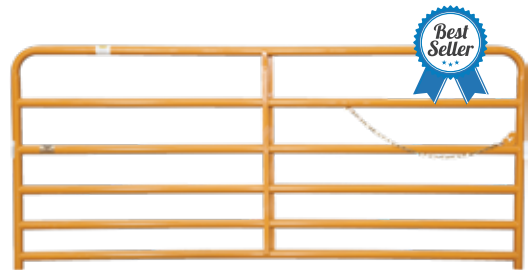

We know our gates are tough and we want you to enjoy them for a lifetime!

If a gate is ever damaged so that it cannot be used for its intended purpose, we will repair or replace at no charge to you, our customer. If a gate is hit with a loader or backed into with a truck/tractor, the gate has to be

damaged to the point that it cannot be used as a gate to hold cattle, sheep, hogs or any other livestock. This is not a scratch or dent cosmetic warranty, it's a pass or fail warranty as to the functionality of the gate.

2" VICTORY TALL GATE

2" VICTORY GATE

Sioux Steel Company (the "Company") warrants to the original purchaser that the livestock gates labeled through the Company's "Lifetime Guarantee Gate Program" (the "Gates") are free from defects in material and workmanship for the life of the original purchaser. No individual or entity, including the selling dealer, is authorized to make any statements or assume for the Company any liability relating to or arising from the product or its use that varies from the express terms of the Limited Lifetime Warranty.

EXCLUSIONS: The Limited Lifetime Warranty does not cover and the Company is not responsible for: (i) modification or alteration of the Gates; (ii) cosmetic damage, normal wear and tear or damage that does not hinder the functionality of the Gates, including fading of the color; (iii) damage caused by use for purposes inconsistent with its intended purpose or design; (iv) damage due to use of any parts or components not supplied by the Company.

The obligation of the Company is limited to repairing or replacing at its factory any part or component determined to its satisfaction to be defective, and all costs, expenses including transportation, and any fees are the responsibility of the customer. The customer must notify the Company of a claim by registered or certified mail within (30) days after discovery or the claim shall be deemed waived at Sioux Steel Company, 196 1/2 E. 6th Street, Sioux Falls, SD 57104. This information is not intended to be the entire Limited Lifetime Warranty for the Gates and is for informational purposes only. Please see the Company's New Product Warranty for the full Limited Lifetime Warranty.

Purchasing a Sioux Gate is like
PLANTING A TREE...

You do it for the next

GENERATION

Sioux Victory gates have been around a long time and with good reason. Families have continued to use these popular gates generation after generation.

VICTORY 2" GATE TESTIMONIALS

"My cattle were recently TB tested. The bulls were last and the oldest one drove a young one into the gate corner. The gate held up. I was pretty impressed!"

Thane M. Grove • Gladwin Tank Mfg., Inc.

This 3 generation, family-owned operation owns an astounding 299 Sioux gates and panels. When asked why they buy Sioux gates, their answer was: "Strength, reliability, and their local dealer who cares about their operation."

Steinheuser Farm • Tulare, SD

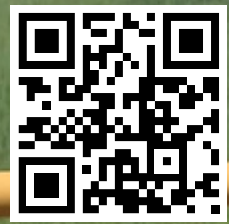

"The Sioux gates my dad bought are now 45 years old. I won't have to replace them and I doubt my sons will either."

Steve Mowry • Ma & Pa Angus

Tom LaFaive, retired ranch manager at Bad River Ranch in Ft. Pierre, SD., managed over 7,000 head of buffalo. The ranch has over 1,400 Sioux Steel Victory Gates on thousands of acres of land.

FEEDERS

GET MORE FROM YOUR HAY FEEDER

CATTLE HAY/GRAIN FEEDER

Perfect for dairy or cattle operations and pasture feeding. Feed mineral, grain or silage with hay. Frame is 2" square 16 gauge tubing. Pan is 18 gauge. Unit measures 6.5' x 8'.

The Hay & Grain Feeder is designed and built so that hay falls past the first layer of bars down into the feeding pan. The end result is a savings of 1/4 to 1/2 of the hay bale. The frame is built entirely of square tubing and angle iron to give it strength. The feed pan withstands abuse as well as weather. The all welded design is built to last a lifetime.

CATTLE HAY/GRAIN FEEDER	DESCRIPTION	WEIGHT
SSCHGRNFDR	Hay & Grain Feeder	577 lbs.

Color: Prairie Gold **Feed Openings: 12** **Diagonal: 10.3'**
Length: 78" **Width: 96"** **Height: 72"**

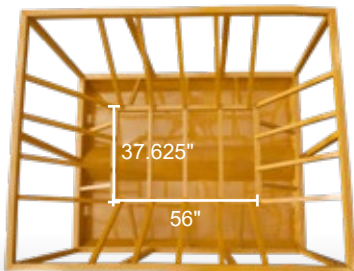

NOTE: All specifications are subject to change or improvement without notice. Contact Sioux Steel for information on delivery and fuel surcharges.

Hay/Grain Feeder - Top View

If hay falls past the first layer of bars, it is captured in the lower level feeding pan.

FENCE LINE FEEDER

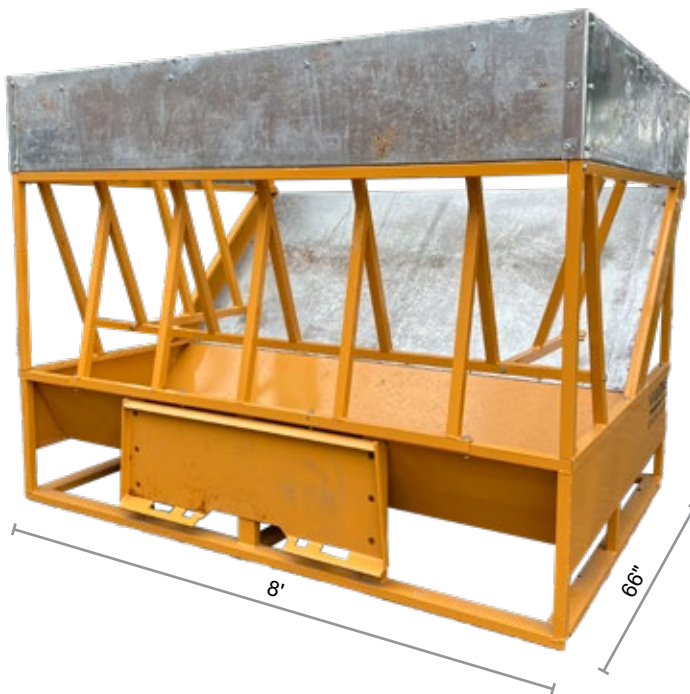

Never have to open a gate and enter a pen. There's also no need to alter or remove any fencing to use the Fence Line Feeder.

- Ease of cleaning by using a quick attach and dumping.
- Less risk of damage to the feeder when moving with a quick attach.
- Gravity-fed with no electrical components.
- Fence-line feeding design saves fuel as well as wear and tear on equipment by avoiding the need to enter the pen.
- Never a need to enter the pen with equipment, ensuring safety to both the farmer and cattle.
- 1 year warranty.

FENCE LINE FEEDER	DESCRIPTION	WEIGHT
S230409	Fence Line Feeder	860 lbs.

Disassembled: Length: 8' Width: 66" Height: 23"

NOTE: All specifications are subject to change or improvement without notice. Contact Sioux Steel for information on delivery and fuel surcharges.

Stacked & Ready to Ship

Fence Line Feeders are stackable for freight savings once shipped. (Can be stacked and able to ship LTL.)

ROUND POLY FEEDER

Specifically designed for horse safety with overlapping joints & countersunk fasteners. Made from recycled materials with UV resistant resin.

ROUND POLY HAY FEEDER	DESCRIPTION	WEIGHT
FSPH84F	8' Round (4 Sections)	120 lbs.
F184933	1 Section & Hardware	20 lbs.

Color: Yellow Poly Diameter: 8'

NOTE: All specifications are subject to change or improvement without notice. Contact Sioux Steel for information on delivery and fuel surcharges.

- Only 120 lbs.
- Lightweight and easy to assemble, move and transport.

5' FEED BUNK

The 5' Feed Bunk is shipped completely assembled and has a 335 lb capacity for livestock feeding. Hayrack is optional.

5' FEED BUNK	DESCRIPTION	WEIGHT
S173953	Bunk 5' Long x 20" Wide	60 lbs.

FEEDERS

GET MORE FROM YOUR HAY AND MINERAL FEEDER

GROUND MINERAL FEEDER

The heaviest ground feeder available. Feeder is 15" high and 38" wide. 3 compartments allow for 200 LBS of mineral. Feeder can be anchored in 3 different locations for added stability. The low profile virtually eliminates tipping or spilling.

GROUND MINERAL FEEDER	DESCRIPTION	WEIGHT
S179218	Ground Mineral Feeder	64 lbs.
S198915	Replacement Flap Kit/Upgrade	24 lbs.

Color: Orange **Compartments: 3** **Total Height: 17"**

NOTE: All specifications are subject to change or improvement without notice.

* Actual color may vary.

LICK FEEDER

Feeder cap included. Concave base is grooved so lick wheels extract feed right from the bottom. Lick feeder is domed to prevent cattle from standing on top of equipment. Wheel brackets are raised to drain off rain or snow.

LICK FEEDER	DESCRIPTION	WEIGHT
SSLF280*	Lick Feeder with 2 lick wheels & mounting brackets	77 lbs.
SSLF280-4	Lick Feeder with 4 lick wheels & mounting brackets	84 lbs.
S175442*	24" Wheel Kit	4 lbs.

Color: Orange **Capacity: 280 Gallons** **Total Height: 38.5"**

Bottom Diameter: 61"

* Actual color may vary.

Features

- Made of high quality Polyethylene.
- Feedlot acids have no effect.
- Durable feeder cap.
- Heavy rib construction.
- Raised to drain off rain and snow.
- Assists natural feed clean out.
- Includes either 2 or 4 lick wheels and mounting brackets.

UPRIGHT MINERAL FEEDER

Beveled hood opening is 28" x 24". Full 360° rotation protects expensive supplements from the elements. The newly designed 44" x 47" base frame footprint is built for strength and stability.

UPRIGHT MINERAL FEEDER	DESCRIPTION	WEIGHT
S229821	Poly Mineral Feeder - Powder Coated Base	92 lbs.
S230405GLV	Poly Mineral Feeder - Galvanized Base	92 lbs.
S229822BLK	Metal Base (Black) Only With Pivot	64 lbs.
S229822GLV	Metal Base (Galvanized) Only With Pivot	64 lbs.

BIG 'O' FEEDER	DESCRIPTION	WEIGHT
S16006	40 Bushel Hog Feeder (complete)	312 lbs.
S16007	65 Bushel Hog Feeder (complete)	348 lbs.
S16008	90 Bushel Hog Feeder (complete)	383 lbs.

Feed Openings: 12 (No Feed Doors) Rust Resistant
Includes poly base, trough/hopper, poly skirts, steel supports, galvanized sidewalls and poly cover.

Parts, Add On Packages & Accessories

S16001	15 Bushel Poly Base	247 lbs.
S16088	40 Bushel (1 Row) - Base Add On	66 lbs.
S16089	65 Bushel (2 Row) - Base Add On	109 lbs.
S16090	90 Bushel (3 Row) - Base Add On	136 lbs.
S16023	25 Bushel Add Ring	37 lbs.
S16024	56" Cover (Poly Lid Package)	28 lbs.
S16072	Ladder Kit - 65 Bushel	11.5 lbs.
S16019	Ladder Kit - 90 Bushel	11.5 lbs.
S16034	Hardware Kit - Add Ring	2 lbs.

Openings: 12 Feed Doors Diameter: 56.5 Inches

Advanced scalloped trough provides a "natural" opening contoured to the hogs jowl. Large head clearance allows the hog to adopt a comfortable stance and conduct eating motions inside the feeder. Keeps feed in the feeding zone where hogs can get to it.

Features

- 12 large openings "natural" to hog anatomy.
- Long-lasting trough is heavy galvanized, 12 gauge steel.
- 60bu feeder is 75" tall with lid & 64.5" tall w/o lid.

MINI FEED BIN

The average size home takes one 5 gallon bucket of corn for heat. That means that the mini corn bin will store enough corn to last 6 weeks. Using the mini corn bin to store corn for a corn-burning stove will save you money on fuel costs in the winter.

MINI FEED BIN	DESCRIPTION	WEIGHT
S186315	40 Bushel Mini Bin 5'x8' Tall	217 lbs.
S183678	65 Bushel Mini Bin 5'x10' Tall	325 lbs.

Capacities: 40 & 65 Bushels

NOTE: All specifications are subject to change or improvement without notice. Contact Sioux Steel for information on delivery and fuel surcharges.

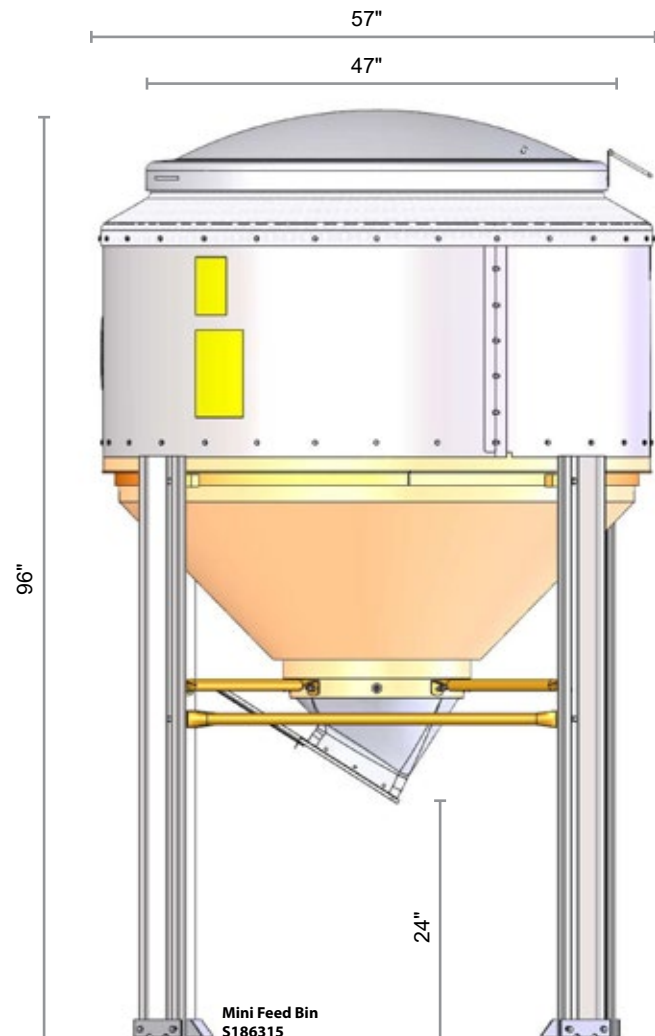

Storage For

- Corn burning stoves
- Various grain pellets
- Bulk seed

Features

- Unit comes with poly boot and slide valve for easy unloading of product in bin.
- Wide variety of bottom attachments.
- 40 bushel (5' x 8' tall) equals 2,240 lbs. capacity
- 65 bushel (5' x 10' tall) equals 3,640 lbs. capacity

SIoux STEEL PRODUCTS ARE MADE IN THE USA

FEEDERS

FEEDING AND STORAGE OPTIONS

BULK FEED BINS

Available in 60° and 67° slopes in either a 16" or 22" hopper opening, Sioux Steel hopper panels are die-formed with rounded corners and down-turned sealing edges for safety and a weather-tight fit. Constructed using high tensile steel sidewall sheets with a G-90 commercial galvanized coating for outstanding strength and durability. Legs can be set to three different heights.

6' DIAMETER BIN

It is absolutely necessary to install an appropriate agitator in feed bins storing soybean meal, cotton seed meal, hot feeds, and other products not considered free-flowing material. All BFB series feed bins include the following standard features: Ground control fill cap, roof panels, 2.66 corrugated sidewalls, 16" hopper openings with collar.

WATERERS

SMALL TO LARGE CAPACITY WATERERS AND TANKS

UTILITY HOG WATERER

Big hogs drink with ease from 18" wide x 17" high x 9 fl" deep drinkers. Each drinker has a drain plug, so washing and flushing is fast, simple and complete. The float and valve are completely protected from hogs.

UTILITY HOG WATERER	DESCRIPTION	WEIGHT
FSHW80	80 Gallon Pig Waterer	41 lbs.
S157187	Replacement Valve Assembly	2 lbs.

ACCESSORIES	DESCRIPTION	WEIGHT
SSTH10S	1000 Watt Heater (Reservoir Submergible)	4 lbs.
SSTH15C	1500 Watt Heater - Convertible	4 lbs.
S157209	250 Watt Heater For Trough	4 lbs.
S157206	Automatic Water Valve	2 lbs.
S157520	Base Heater Cord Protector Kit	3 lbs.

Capacity: 80 Gallons Drinking Areas: 2

NOTE: Non-nesting charge. Poly stock tanks not nested are subject to a 5% charge for delivery. A "nest" is any two (2) tanks, one inside the other or single tank with a drinker.

NOTE: All specifications are subject to change or improvement without notice. Contact Sioux Steel for information on delivery and fuel surcharges.

Features

- Trough height from floor is 6", so little pigs drink easily.
- One dependable float and valve handles both drinkers.
- 2 drinking areas.
- Drain plug for easy washing and flushing.

MOST USER-FRIENDLY CALVING PEN ON THE MARKET!

360° miter cut reinforcing corner members, 4x4 weld architecture and easy assembly connector clips eliminating nuts and bolts.

S15503HD INCLUDES AUTO HEAD GATE & ANCHOR MAT!

WATCH A CALVING PEN VIDEO DEMONSTRATION

Scan this QR code with your smartphone to see how user-friendly this equipment is!

Panel Sides
All four side panels open up and feature a slam-latch design.

System Includes:

- (1) 10' head gate panel
- (1) Auto head gate
- (1) Anchor mat
- (2) 10' standard panels
- (1) Squeeze gate ratchet latch
- (1) 7' squeeze gate
- (1) 10' nursing panel

Product: S198400

Learn more about the Sioux Steel Auto Head Gate on page 38.

Outside Flip-Up Nursing Panel

1/4 of the gate flips up and locks tight to provide open area on the outside of the pen for nursing, birthing, or veterinarian tasks.

Squeeze Gate

Tightens against outside panel to hold the animal secure and swings completely out of the way. Squeeze Gate converts to a 10'x10' pen for treating and holding sick or injured animals.

Swing Gate

Tough gold quality Sioux Steel gates made of 50,000 psi, 16 gauge, high-tensile steel tubing.

Inside Flip-Up Panel

1/4 of the gate flips up and locks tight to provide open area for easy, safe access to the animal for grafting calves to cows or for correcting nursing problems.

Ratchet Latch

Easy to handle and assures solid control of the animal. Tightens squeeze gate in increments. When locked, stays locked. Overhead rope gives quick, safe release.

Anchor Mat

Heavy 26.5" wide frame by 8' long, 9 gauge expandable steel mat with perimeter reinforcements. While animals stand with their feet on the mat, the mat does not allow the head gate or the pen to be pushed out of position.

50,000 PSI

16 GAUGE

POWDER COATED TOUGH

CALF WARMER

The calf warmer creates a comfortable, enclosed environment for newborns during the critical hours after birth.

The heater is located in a separate enclosure at the rear of the calf warmer. The interior of the calf warmer provides enough room so the calf can lie down or stand. The instinctive identity scent will not be removed, so waiting mothers reclaim their rejuvenated infants at once.

5 year prorated warranty on the shell, 1 year warranty on the flooring and 6 month warranty on the heater.

CALF WARMER	DESCRIPTION	WEIGHT
S176314	Poly Calf Warmer w/Heater	150 lbs.
S177902	Calf Warmer Heater	6 lbs.

Dimensions: 24" W x 50" L x 45" T

Lower Section: 16" Deep

NOTE: All specifications are subject to change or improvement without notice. Contact Sioux Steel for information on delivery and fuel surcharges.

Features

- Made from durable, medium density polyethylene
- Removable top section for easy cleaning
- Ribbed bottom
- Vent/Peep hole for proper ventilation and viewing
- Deluxe, high-performance, 110 volt, 2-speed heater

Enclosed Sides Make Cattle Feel Safe

Catwalk Around Tub

Sorting Door In Use

"We replaced all the gates with Sioux Steel gates and purchased a Sioux head gate/squeeze chute combination. We have worked the same cows with Sioux products and have been amazed at the difference. Numerous times we have had full grown cows try get out over these gates, and they did not buckle at all.

The head gate/squeeze chute combination has been nothing short of amazing. No cows have been injured and they are much safer for the operators. I highly recommend Sioux Steel gates and cattle handling equipment."

EQUIPMENT

ALLEYS & IN-LINE GATES

ADJUSTABLE ALLEYS

After leaving the tub, cattle naturally move toward the light by passing through these adjustable alleys, providing a smooth, continuous flow and reducing stress.

Alleys allow animals to be squeezed down to 16" for calves and out to 30" for mature animals with 6 locking points.

(2) 8 1/2' alleys can be linked together to create a 16' alley!

Specifications

- 8 1/2' length
- Adjusts from 16" to 30" wide
- Built-in no back bar
- Greasable pivot points
- Full catwalk
- 6 locking points

IN-LINE GATE

IN-LINE GATE	DESCRIPTION	WEIGHT
S224067	Scissor Style In-Line Gate	270 lbs.

Stand alone or add to short chute and other Sioux Steel working equipment. Operates in all weather conditions.

Features

- Doors are removable and can be reversed if desired.
- Scissor style gate provides more control of cattle in alley requiring less handling time and effort.
- Less effort required to open or close gate.
- Dual handles allow gate to be opened from either side for greater versatility.

SLICK DOOR

SLICK DOOR	DESCRIPTION	WEIGHT
S229228	Pin On Slick Door	295 lbs.

Color: Prairie Gold

NOTE: All specifications are subject to change or improvement without notice. Contact Sioux Steel for information on delivery and fuel surcharges.

Easily mount a slick door to a squeeze chute, any size alley and palp cages with the pin on feature.

A rope and pulley system is utilized to open and close the slick door while working cattle.

AUTO HEAD GATE

Spring cushion mounted on squeeze chute to reduce impact when the animal runs into the head gate.

AUTO HEAD GATE	DESCRIPTION	WEIGHT
S198400	Self-Catching Automatic Head Gate	277 lbs.

Left or right handed operation.

Quickly and easily adjusted automatic, self-catch head gate.

When a cow goes through, the head gate resets itself automatically.

Head gate is adjustable from 4" to 10.5".

NOSE BAR

Bar swings across the front to hold the head in a firm position while working. Bars swing out of the way for animal exit.

NOSE BAR	DESCRIPTION	WEIGHT
S229088RD	Nose Bar	41 lbs.

Can only be utilized with automatic head gates. (Head gate sold separately.)

Cattle do not have the ability to move their head while ear tags or horns are removed, and while veterinarian work is being performed.

PALP CAGE

The palp cage can be used for sorting animals or block the passage while working on the animal in the chute.

PALP CAGE	DESCRIPTION	WEIGHT
S202547	3' Palp Cage Less Slick Door	260 lbs.

Doors open on either side of the palp cage and can move inward or outward for sorting or blocking purposes.

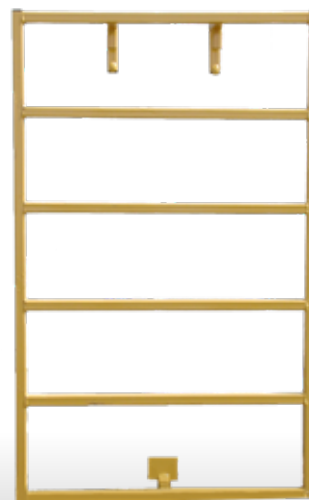

Make the width of the palp cage smaller by one foot by adding palp filler panels.

PALP CAGE FILLER

Utilized on the inside of the palp cage doors, these panels easily hook to the top of the door to decrease the total width of the palp cage.

PALP CAGE FILLER	DESCRIPTION	WEIGHT
S197610PG	Palp Cage 6" Filler Panel	20 lbs.

Each filler panel is 6" in depth. Add 2 panels to the palp cage to decrease the total width of the cage by one foot.

Keeps consistent width from alley to palp cage to chute when equipment is squeezed down.

Helps cattle continue to move forward and prevents them from turning around.

MANUAL HEAD GATE

Controls can be mounted on either side of the head gate, accommodating to your cattle working environment.

MANUAL HEAD GATE	DESCRIPTION	WEIGHT
S202800	HD Manual Head Gate - Left Handed	319 lbs.
S208753	HD Manual Head Gate - Right Handed	319 lbs.

Product: S202800
(Left Handed)

Left or right handed operations are determined by facing forward the same way cattle would be facing in the head gate.

Left or right handed operation.

When cattle are in a head gate they tend to put pressure forward or backward on the gate. Simply move the lever on the manual head gate and open the check valve and it will open.

50,000 PSI

16 GAUGE

POWDER COATED TOUGH

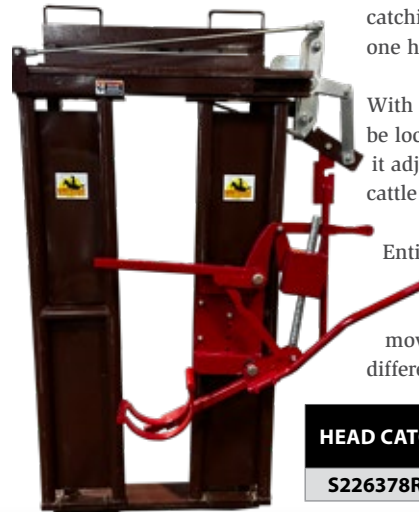

HEAD CATCH

Quickly & easily secure a cow's head for handlers and veterinarians access to the animal to administer medication, replace tags, monitor well being, and various other tasks. Can only be used with manual head gates. (Head gate sold separately.)

Locking mechanism allows for catching the animals head with one hand.

With friction bar, Head Catch can be locked in any position, making it adjustable to working both cattle & calves.

Entire unit has 5 mounting positions allowing for 10 inches of vertical movement to accommodate different cattle sizes.

HEAD CATCH	DESCRIPTION	WEIGHT
S226378RD	Head Catch	81 lbs.
